

CITATION LONGITUDE

4,000_{nm}
COUNTRY
TO **COUNTRY.**

RANGE

FACE TO FACE.

Nonstop. The Longitude – your next international business tool – pulls out all the stops in a 4,000 nm radius. Make your face-to-face meetings more frequent and your time more productive. You'll make your point without delay, arriving in Cessna's latest in the long line of distinguished Citations.

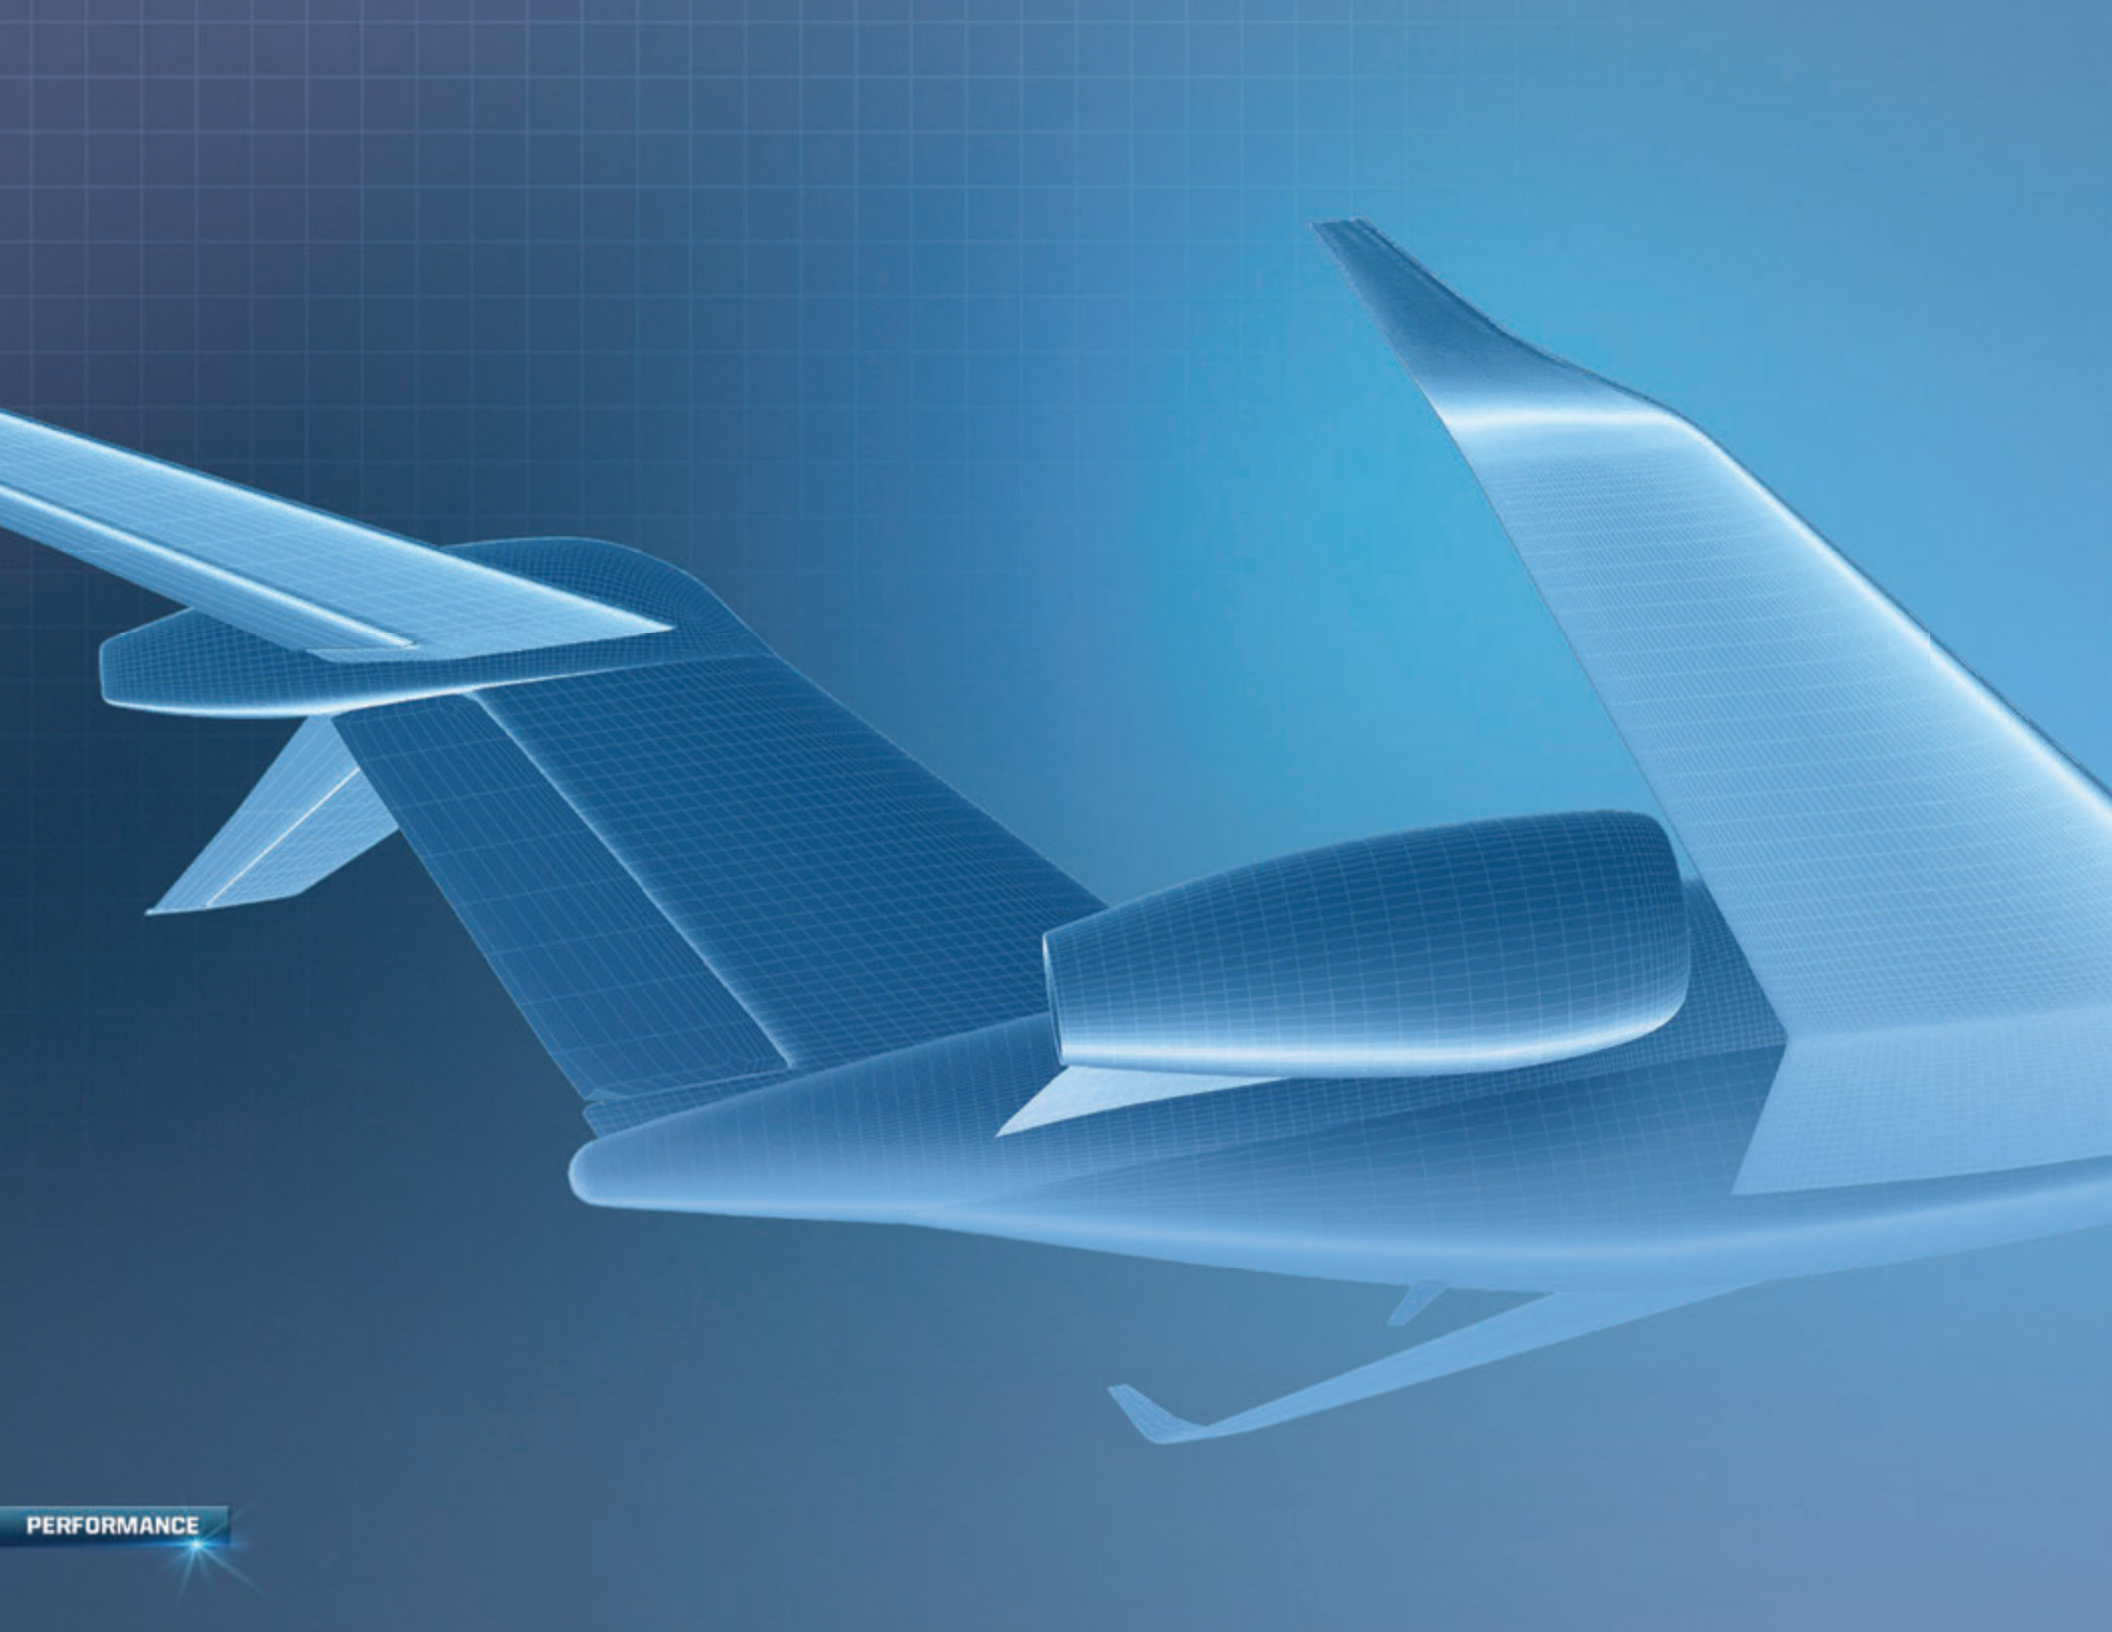

CITY PAIRS

New York to Paris

London to Dubai

Beijing to Moscow

PERFORMANCE

WELL IN YOUR RANGE AND LEAGUES AHEAD OF THE **COMPETITION.**

It's a Citation, after all. Always going the extra mile. Or 4,000. Along with international range comes the speed to get you there. Superior stability and runway characteristics. A gently swept wing and advanced winglets for greater range, with improved hot/high performance, climb and fuel burn. More of the Citation you've asked for. For millions less than other business jets with the same range.

SPECIFICATIONS

Wingspan: 86 ft (26.2 m)

Overall length: 87 ft (26.5 m)

Maximum speed (Mmo): Mach 0.86

INTERIOR

WORLDS OF ROOM. INTERCONTINENTAL COMFORT.

Enjoy **37.5 feet (11.4 m) of flat-floor convenience with six feet (1.83 m) of stand-up headroom.** The Longitude cabin stretches out, so that you can, too, while crossing the continents. Fast loading for departure. And extra-large cargo capacity accessible from the interior, so your baggage is easily reachable throughout your trip. Greater comfort for your international flight, in a world-class cabin designed for the way you work and relax.

IN-FLIGHT BAGGAGE ACCESS

Options for layout of the 37.5-foot flat-floor cabin, providing expansive walk-in baggage storage

INTERIOR

ULTIMATE CONNECTIVITY WITH ABSOLUTE **CLAIRITY**.™

You'll find your Longitude cabin is the “ultimate connectivity experience.”

The aircraft's fiber optic backbone enables Clarity™, our intelligent cabin technology developed specifically for the Citation line. Clarity™ gives each passenger touch-screen user control right on the armrest or from wireless devices like smartphones or tablets. You can access everything from cabin lighting, window shades, temperature, digital audio and video – even dynamic real-time maps – without leaving your chair. Digital inputs and Wi-Fi are standard, with options for satellite radio, Blu-ray players, external cameras or high-speed Internet.

NAVIGATION AT A GLANCE. RESPONSE AT A TOUCH.

A business jet as advanced as the Longitude demands the Garmin® G5000™ all-glass touch-screen flight deck.

Garmin's SVT™ synthetic vision technology provides the pilot with 3-D virtual representation of ground and water surfaces, obstacles and traffic equally well in instrument or visual flight conditions. Primary flight data displays in a widescreen panoramic view for surer, easier monitoring and faster troubleshooting. As NextGen and other traffic modernizations evolve, your Longitude will upgrade to support them.

GARMIN® G5000™ FLIGHT DECK

- All-crew accessible touch-screen control
- GPS-guided glide path approaches
- Voice and data via digital radio and satellite
- Advanced weather detection/avoidance

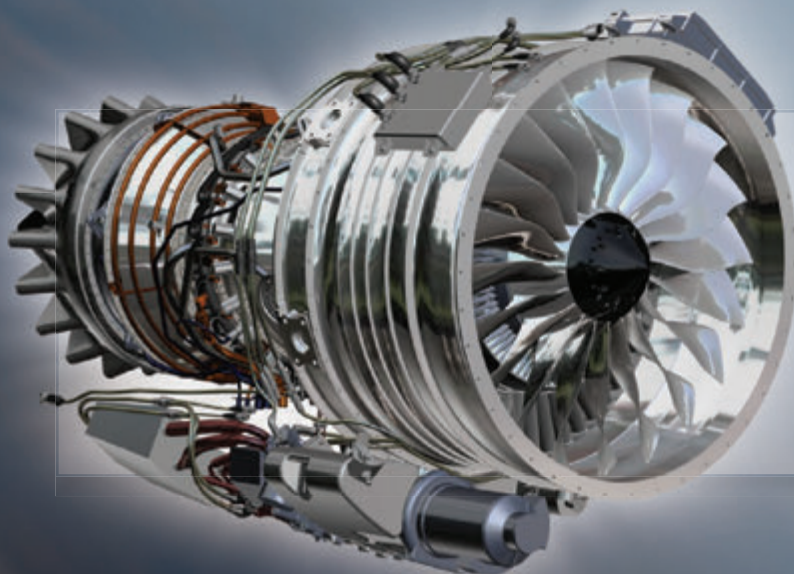

ENGINES

NOTHING SAYS “BE THERE SOON” LIKE 22,000 POUNDS **OF THRUST.**

Chosen for forward-looking design and advanced performance, twin Snecma Silvercrest® SC-2C engines will power Longitude owners around the globe and into the future. The world’s debut of the Silvercrest® will also deliver 15% lower fuel burn than other engines in its thrust class. It’s quieter. Well below Stage 4 noise requirements. Runs cleaner. Outperforming emission standards by 50%, on the average. And long-lived. Designed to service the long-range business jet category for decades to come.

PERFORMANCE

Thrust	11,000 lb. each at takeoff
Fuel burn	15% lower than engines with similar thrust
Noise level	Up to 20 EPNdB vs. Stage 4
Emission	50% margin vs. CAEP/6

MEET THE NEW LONGITUDE. IN PERSON.

You can quickly see the new Citation Longitude as your primary international aircraft or the perfect stablemate in any flight department. At a price that other jets with similar range can't even approach. Contact your Cessna Citation sales representative for more details and an appointment for a private viewing.

THE CITATION HERITAGE

Only the makers of the Cessna Citation can offer you the pride, trust and performance of this historic line of business jets. These dedicated Cessna professionals have designed and engineered our next-generation Citations with future support and ease of service in mind. They extend a personal invitation to you to meet the Longitude.
